How to film and post

- **Format:** vertical 9:16, 1080 x 1920, 7 to 30 seconds. Keep the main action in the middle so captions don't cover it.
- **Hook:** show the most interesting moment or text in the first 2 seconds.
- **Text on screen:** large, short lines; most people watch with sound off.
- **Ending:** finish every reel with the Wudly outro we made, plus one call to action: save, share, comment or shop.
- **How often:** 3 to 4 reels a week, for example 1 product, 1 parent tip, 1 behind the scenes and 1 fun or trend reel.
- **Best times:** 7 to 9 pm on weekdays, 11 am to 1 pm on weekends. Check Instagram Insights after 4 weeks and adjust.
- **Caption:** first line repeats the hook; add the product name, price and 5 to 8 hashtags such as #WudlyToys #WoodenToys #MontessoriIndia #ToysForKids #ScreenFreePlay.
