MEMORABLE WALK: META ADS PLAN FOR EVENT PLANNING & DECOR

A practical 90-day plan to turn Instagram and Facebook into a steady source of qualified inquiries for wedding, haldi, birthday party and festival decor in Ahmedabad.

Prepared by Scene Media for @memorable_walk_event Draft for client review · October 2026

Currency: INR

GOAL **Qualified inquiries that turn into bookings**	MAIN ACTION **Message on WhatsApp, or a short quote form**
WHERE **Ahmedabad and nearby areas you serve**	RECOMMENDED START **₹1,000/day ad spend (about ₹30,000/month) + ₹12,000/month management, for 90 days**

01 · BASIS

WHAT THIS PLAN IS BASED ON.

This plan uses one reference post from the client's Instagram. Anything taken directly from that post is marked FROM POST, and details the client has confirmed are marked CONFIRMED. Anything we have assumed to complete the plan is marked ASSUMPTION and should be confirmed before launch.

DETAIL	WHAT THE POST SHOWS
Account	@memorable_walk_event; brand hashtag #MemorableWalk
Location tag	Ahmedabad, India
Service featured	Ganpati (Ganesh Chaturthi) decoration. Caption: “New decor ideas for ganpati decoration”
Services offered CONFIRMED	Wedding decor, haldi ceremonies, birthday parties, festival decor such as Ganpati, and other events. Confirmed by the client; the reference post itself shows Ganpati decor only.

DETAIL	WHAT THE POST SHOWS
Call to action	“Book now: 6351748335” (booking by phone)
Format	5-image carousel, square (1:1) photos, presented as a set of decor ideas
Hashtags	#ganpatidecoration #ganpatidecorideas #MemorableWalk #ganpati
Timing	Posted 11 June 2026, about three months before the festival, which suggests customers plan festival decor well ahead
Engagement	31 likes and 2 comments when reviewed. A modest organic reach, so paid ads can

What we take from it

- The business is local to Ahmedabad, so ads should target a tight geographic area.
- Customers already book by phone, so ads should start a conversation rather than send people to a website.
- Demand comes from several occasions: weddings and haldi, birthdays, and festivals. Each gets its own audience and creative.
- Wedding season is the next high-demand period, so the plan prioritises it at launch.
- An “ideas” carousel is the existing content style, and it translates directly into a carousel ad.

Assumptions used in this plan

- A1 The trading name is “Memorable Walk” (from the handle and hashtag).
- A3 The phone number is on WhatsApp Business.
- A4 The service area is Ahmedabad and nearby areas.
- A5 Customers respond to English, Gujarati and Hindi ads.
- A6 More photos and videos of past setups are available.
- A7 The Instagram account is linked to a Facebook Page and a Meta ad account.

> We could read the post's caption, tags and details, but the images themselves could not be reviewed for this draft. The colors, themes and decor elements in the creative concepts below are deliberately general. Please confirm the visual style (colors, signature elements, overall look) so ads match the brand.

02 · OBJECTIVES

RECOMMENDED CAMPAIGN OBJECTIVES.

Event decor is visual, personal, and priced per setup. People want to see the work, then talk to someone about their date, space and budget. The objectives below are chosen to get that conversation started.

OBJECTIVE (IN ADS MANAGER)	ROLE	WHY IT FITS
Leads → Messaging apps (WhatsApp)	PRIMARY	Matches how bookings already happen (by phone). A tap opens WhatsApp with a pre-filled message, so the team can ask about date, venue and budget and share photos straight away.
Leads → Instant form	TEST	Collects event type, date, area and budget before anyone talks. Useful if the team can't reply to chats quickly, or to filter out low-fit inquiries. Use the “Higher intent” form type to reduce junk leads.
Engagement → Video views	Support (Growth & Scale budgets only)	Cheaply shows setup videos to many local people, then builds a warm audience to retarget with inquiry ads.
Leads (retargeting)	Follow-up	Re-engages people who already viewed, liked or messaged, who are usually the cheapest to convert.

> We are not recommending Traffic or Reach as main objectives. They bring clicks and views, but Meta will then find people who click, not people who inquire.

03 · AUDIENCES

TARGET AUDIENCES.

Location

- **Target:** Ahmedabad city, starting with a 15–20 km radius around the areas served. A4
- **Setting:** “People living in this location”, so tourists and passers-through are excluded.
- **Optional:** add Gandhinagar or other nearby towns only if the client travels there.
- **Refine:** once results come in, narrow to the pin codes or areas that produce bookings.

Demographics

- **Age:** 24–55 to start; Meta will refine within this. ASSUMPTION
- **Gender:** all.
- **Languages:** leave open, and run English plus Gujarati or Hindi ad versions. A5

AUDIENCE	WHO IT REACHES	HOW TO BUILD IT
1. Broad local	Anyone in the service area. Meta finds likely inquirers using the creative and conversion signals.	Advantage+ audience, location only, with the interests below added as suggestions. Usually the most efficient option once the account has some data.

AUDIENCE	WHO IT REACHES	HOW TO BUILD IT
2. Weddings & haldi	Couples and families planning a wedding or its functions	Life events: Newly engaged (3 months), Recently engaged (6 months–1 year). Interests: Wedding, Wedding planning, Engagement, Bridal, Wedding dress, Mehndi, Indian wedding. Families often book, so keep the age range wide.
3. Birthdays & parties	Parents and hosts planning a birthday or party	Parents with toddlers, preschoolers and early school-age children; Friends of people with birthdays in the next month. Interests: Birthday party, Party planning, Event planning, Balloons, Party supplies.
4. Festivals (seasonal)	Households celebrating at home	Interests: Ganesh Chaturthi, Diwali, Hindu festivals, Home decor, Interior design. Used only in the weeks before each festival the client serves.
5. Warm (retargeting)	People who already know the brand	Instagram and Facebook engagers (last 365 days), people who watched 50%+ of any ad video, people who messaged the business, and website visitors if a Meta Pixel is installed.
6. Lookalike	People similar to past customers	Upload a list of past client phone numbers (only with their consent). Build a 1% India lookalike, then restrict it to the service area. Needs at least 100 matched contacts.
Exclusions	People we shouldn't pay to reach	Recently booked clients, staff, and vendors.

04 · STRUCTURE

CAMPAIGN STRUCTURE & AD FORMATS.

Keep the structure lean. With a local business budget, fewer ad sets means each one gets enough data for Meta to learn from.

Campaign 1 · Always-on inquiries

LEADS · WHATSAPP

Ad set 1A: Broad local (Advantage+ audience)

Mixed ads across weddings, haldi and birthdays, letting Meta find who responds

Ad set 1B: Weddings & haldi

Wedding and haldi setups only, with copy about the wedding functions

Ad set 1C: Birthdays & parties

Birthday themes and party setups only

Campaign 2 · Retargeting

LEADS · WHATSAPP OR FORM

Ad set 2A: Warm audiences (engagers, video viewers, past messagers)

2–3 ads: client reactions, the booking process, a “check your date” reminder

Campaign 3 · Seasonal bursts

LEADS · TIME-LIMITED

Wedding season push

Extra budget on ad set 1B during the client's busiest wedding months. These are usually around November to February; confirm the actual dates.

Festival ad sets

For example, Ganpati decor, starting about 6 weeks before the festival. Add Diwali or Navratri only if the client takes that work.

FORMAT	SIZES	BEST USE
Carousel	1:1 or 4:5, 3–10 cards	Decor idea lookbook. This mirrors the existing post style; each card is one setup.
Reels / video	9:16, 15–30 sec	Setup time-lapse and walkthroughs. Usually the cheapest reach on Instagram.
Stories	9:16	Quick reveals with a WhatsApp button. Good for retargeting.
Single image	4:5	One strong hero setup with a clear offer to message.

> Placements: use Advantage+ placements (Instagram and Facebook feeds, Reels, Stories), but provide a 9:16 and a 4:5 version of each creative so nothing is cropped badly.

05 · CREATIVE

CREATIVE CONCEPTS.

All concepts use the client's real photos and videos of completed setups. Real work builds more trust than stock images in this category. A6

CAROUSEL

Decor idea lookbook

Taken directly from the reference post. Each card shows one complete setup with a short label (for example, theme or occasion). The last card is a clear “Message us to book your date” slide with the WhatsApp number.

REEL · 15–30 SEC

From empty space to celebration

A time-lapse of a room or venue being transformed, ending on the finished setup. The first 2 seconds show the final result so viewers stop scrolling.

REEL OR CAROUSEL

In the details

Close-ups of the elements that make a setup special, such as backdrops, florals, lighting and table details, depending on what the client uses. Shows quality and care.

VIDEO OR IMAGE

Client reactions

A family or host seeing the finished setup, or a short quote from a happy client. Only with the client's permission. Best for retargeting.

CAROUSEL OR STORY

How booking works

Three simple steps: message us with your date and space, choose a theme and budget, we set it up. Removes uncertainty for first-time customers. The steps should be confirmed against the real process.

REEL OR CAROUSEL

Haldi & wedding functions

A walk-through of a haldi setup, then other wedding function setups the client has done. Shows the range across a wedding, so couples consider one decorator for every function.

REEL · 9:16

Birthday theme reveal

A quick reveal of a themed birthday setup, from the entrance to the cake table, ending on the child's or host's reaction. Rotate several themes so parents see options.

SEASONAL

Festival decor ideas

A refreshed lookbook launched ahead of each festival the client serves (for example, the next Ganpati season), with a prompt to book early. Use urgency only if dates or capacity really are limited.

06 · COPY

SAMPLE AD COPY.

Highlighted text in [brackets] needs client input. We have not added prices, years in business or claims that aren't in the reference material. Gujarati or Hindi versions should be written by a native speaker from the final English copy.

Memorable Walk A · SEASONAL · CAROUSEL

Planning Ganpati decoration this year? 🌼

Swipe through our latest Ganpati decor ideas. Send us your date and a photo of your space on WhatsApp, and we'll suggest a setup that fits.

Send message

WhatsApp welcome message (sets up qualifying questions)

"Hi! Thanks for contacting Memorable Walk 🙏 To share the right ideas, please tell us: 1) your event type, 2) the date, 3) the area or venue, and 4) a rough budget. A photo of your space helps too!"

PRE-FILLED MESSAGE THE CUSTOMER SENDS

"Hi, I saw your ad and want to know about decor for my event."

07 · BUDGET

BUDGET & CAMPAIGN DURATION.

Recommended duration is **90 days**. The first 2–3 weeks are a learning period while Meta works out who responds. Results usually become steadier and cheaper after that. Seasonal bursts run for 4–6 weeks before each festival, on top of the always-on budget.

STARTER

₹500/day

≈ ₹15,000 / month ad spend
+ ₹12,000 management =
₹27,000 / month

- Campaign 1, Broad local only (wedding, haldi and birthday ads inside it): 80%
- Retargeting: 20%
- 3 creatives
- Good for proving the channel works

GROWTH · RECOMMENDED

₹1,000/day

≈ ₹30,000 / month ad spend
+ ₹12,000 management =
₹42,000 / month

- Campaign 1, Broad local + Weddings & haldi: 65%
- Retargeting: 20%
- Video views for warm audience: 15%
- 4–6 creatives, room for proper testing

SCALE

₹2,000/day

≈ ₹60,000 / month ad spend
+ ₹12,000 management =
₹72,000 / month

- Campaign 1, all three ad sets: 55%
- Retargeting: 20%
- Seasonal bursts and video: 25%
- Wider area, Gujarati/Hindi versions, fresh creative every 2–3 weeks

Setting a target cost per booking

There is no past ad data yet, so we will set cost targets from real results after week 2 rather than guess now. To decide what a good result is, we need the client's **average booking value** and the share of it they're comfortable spending to win a booking.

FORMULA

Affordable cost per booking = average booking value × % of revenue for marketing.
Affordable cost per inquiry = affordable cost per booking × inquiry-to-booking rate.

Scene Media management charges: ₹12,000 / month

A fixed monthly fee for setting up and running the campaigns in this plan. It is paid separately from the ad spend, which is billed directly by Meta to the client's ad account.

- Campaign, audience and ad set-up in Meta Ads Manager
- Ad copy and WhatsApp welcome message
- Daily monitoring, testing and budget optimization
- Weekly update and monthly performance report

TIER	AD SPEND / MONTH	MANAGEMENT / MONTH	TOTAL / MONTH	TOTAL FOR 90 DAYS
Starter	₹15,000	₹12,000	₹27,000	₹81,000
Growth (recommended)	₹30,000	₹12,000	₹42,000	₹1,26,000
Scale	₹60,000	₹12,000	₹72,000	₹2,16,000

> Meta charges applicable GST on top of ad spend for Indian accounts. Ad spend figures are approximate because Meta's daily spend varies slightly from day to day.

08 · TESTING

TESTING & OPTIMIZATION PLAN.

> **First week on a new ad account:** because the Meta ad account is new, the first week will not deliver consistently good-quality leads. Meta needs real inquiries to learn who to show the ads to. We use this week to gather data, and we judge results from week 2 onward.

Test one thing at a time, so we know what made the difference.

WEEKS	WHAT WE TEST	HOW WE DECIDE
1–2	Creative format: carousel vs Reel vs single image	Cost per conversation started, and which ad brings qualified chats
3–4	Audience: Broad local vs Weddings & haldi vs Birthdays & parties	Cost per qualified inquiry
5–6	Conversion route: WhatsApp vs Instant form	Inquiry-to-booking rate, not just lead cost
7–8	Message angle: ideas/inspiration vs “check your date” vs how booking works; also which occasion (wedding, haldi, birthday) books best	Cost per qualified inquiry
9–12	Scale what works, refresh creative, retarget	Bookings and revenue from ads

Rules we follow

- Let ads run at least 5–7 days before judging them.
- Avoid major edits during the first 2 weeks, as they restart learning.
- Pause an ad that spends twice the target cost per inquiry with no inquiry.
- Increase budget on winners by about 20% every 3–4 days, not all at once.
- Refresh creative when frequency passes about 3 or click-through rate falls noticeably.

Lead quality loop

- Label every inquiry in WhatsApp Business: New → Qualified → Quote sent → Booked / Lost.
- Share a weekly count of each label so we optimize for bookings, not just messages.
- Ask “How did you hear about us?” to confirm ad-driven bookings.

09 · METRICS

KEY PERFORMANCE METRICS.

A **qualified inquiry** is someone in the service area, with an event type the client offers, a date the client can take, and a budget in range.

METRIC	WHAT IT TELLS US	WHERE IT COMES FROM
Bookings from ads	The result that matters most	Client's records / WhatsApp labels
Cost per booking	Whether ads are profitable	Ad spend ÷ bookings
Qualified inquiries	Volume of real opportunities	WhatsApp labels or form review

METRIC	WHAT IT TELLS US	WHERE IT COMES FROM
Cost per qualified inquiry	Main number we optimize toward	Ad spend ÷ qualified inquiries
Inquiry-to-booking rate	Lead quality and sales follow-up	Bookings ÷ qualified inquiries
Cost per conversation / lead	Early signal, available from day 1	Ads Manager
Link click-through rate (CTR)	Whether the creative grabs attention	Ads Manager
Frequency	When people have seen an ad too often	Ads Manager
Video hook rate	Share of viewers who stay past 3 seconds	Ads Manager (3-sec views ÷ impressions)
Response time	Fast replies win bookings; slow replies waste ad spend	WhatsApp Business

10 · TIMELINE

LAUNCH & MANAGEMENT TIMELINE.

Week 0

Preparation (5–7 days)

Wedding season is close, so aim to launch within a week. Wedding and haldi creative comes first.

- Confirm the checklist below and agree on budget.
- Collect Facebook and Instagram account IDs; client adds Scene Media as a partner in Meta Business Suite (no passwords shared); set up payment method; link WhatsApp Business.
- Collect photos and videos; produce 4–6 creatives in 9:16 and 4:5.
- Set up the welcome message, quick replies and inquiry labels.

Week 1

Launch

Campaign 1 and retargeting go live. Daily checks on spend, ad approval and incoming chats.

What to expect: the Meta ad account is new, so Meta has no past data on who inquires and books. In the first week, expect fewer leads, and some won't be good quality. This is normal for a new account, and lead quality usually improves from week 2 as Meta learns from real inquiries.

Weeks 1–2	**Learning period**	Minimal changes. Make sure every inquiry gets a fast reply. First short update to the client at the end of week 2.
Weeks 3–4	**First optimization**	Pause weak ads, shift budget to winners, start the audience test. First monthly report.
Month 2	**Refine and grow**	Test WhatsApp vs form and new message angles. Add fresh creative. Raise budget on what produces bookings.
Month 3	**Scale and review**	Full 90-day review of bookings, cost per booking and lessons learned. Agree the next quarter's plan and the seasonal calendar (for example, starting Ganpati ads about 6 weeks before the festival).
Ongoing	**Reporting rhythm**	Quick weekly update (spend, inquiries, bookings); monthly report with recommendations.

11 · BEFORE LAUNCH

INFORMATION TO CONFIRM WITH THE CLIENT.

These answers will finalize targeting, budget and copy. Items marked with an assumption code replace that assumption.

- [ ] **Service area**
  Which areas, pin codes or towns; how far they travel (A4)
- [ ] **Priority event types**
  Weddings, haldi, birthdays and festivals are confirmed. Which to push first, any other functions (e.g. mehndi, engagement), and full wedding decor or single functions?
- [ ] **Ideal customer**
  Home events vs venues, typical event size, who usually books
- [ ] **Monthly ad budget**
  Which tier, and for how long
- [ ] **Pricing and booking value**
  Starting price or ranges, minimum order, average booking value
- [ ] **Booking process**
  Steps from inquiry to booking, advance payment, lead time needed
- [ ] **Preferred contact method**
  WhatsApp, phone call, Instagram DM or form; is 6351748335 on WhatsApp Business? (A3)
- [ ] **Who replies, and when**
  Team member, working hours, realistic response time

- [ ] **Capacity**
  How many events per day or per festival, so we don't over-promote
- [ ] **Brand name and visual style**
  Official name, logo, brand colors, signature decor style (A1)
- [ ] **Languages**
  English, Gujarati, Hindi: which they prefer to use with customers (A5)
- [ ] **Account access for Scene Media**
  Add Scene Media as a partner in Meta Business Suite (Business settings › Partners) with access to the Facebook Page, Instagram account and ad account. No passwords needed. Also: payment method and GST details.
- [ ] **Offers**
  Any early-booking or package offers they are happy to advertise
- [ ] **Seasonal calendar**
  Busiest wedding months, which festivals they serve, and how far ahead people book
- [ ] **Photo and video library**
  Available content and permission to show clients' homes or faces (A6)
- [ ] **Facebook & Instagram account IDs**
  Facebook Page link and Page ID, Instagram username and account ID, Meta Business ID and ad account ID (A7)
- [ ] **Website or landing page**
  Whether one exists and can have the Meta Pixel installed
- [ ] **Past client list**
  Contacts that can be used for a lookalike audience, with consent

---

SCENE MEDIA.

PREPARED BY SCENE MEDIA

Prepared from one public Instagram post (@memorable_walk_event, 11 June 2026) and services confirmed by the client. All figures are recommendations, not guaranteed results; performance targets will be set from live campaign data.
