# Wudly Toys: Factory, Office & Founders Shoot Plan

Oct 12, 2026 · @Shreyansh

## Goals

One shoot day at the factory and office should give Wudly 8 weeks of real, trust-building content: about 10 reels, 40 photos and 2 founder carousels.

- **Show the hands behind the toys:** real wood, real people, real work. This answers "Is it safe? Is it real?" better than any product photo.
- **Put a face to the brand:** the husband-and-wife founders become the voice of Wudly on Instagram and LinkedIn.
- **Build a content bank:** shoot more than we need, so we are not stuck on product-only posts.
- **Replace stock-style images:** our own factory and office photos for the website, catalogue and ads.

## Story angles

Every shot should serve one of these four stories, so the footage fits together later.

| Story | What it says | Where it lives |
|---|---|---|
| **A couple building a toy brand** | Two parents who started Wudly together, splitting work and dreams | Reels, founder carousel, LinkedIn |
| **From a block of wood to a toy** | Cutting, sanding, painting, checking: real steps, real people | Process reels, "How it's made" carousel |
| **Safe for little hands** | Smooth edges, checks on every piece, careful finishing | Trust reels, product pages, ads |
| **Small team, big care** | The office, packing every order by hand, the people behind it | Behind-the-scenes stories, "Meet the team" |

**Please confirm before the shoot:** the founders' names, how they would like to be introduced (for example "Founder" and "Co-founder"), the factory city, and which safety or quality checks are really done. We will only show and say what is true.

# Shot list: factory

Follow one toy (for example the Rainbow Stacker or Memory Chess) from raw wood to the box, so the process reel has a clear start and end. Film every step as wide, close-up and slow-motion.

| # | Shot | Type | Notes |
|---|---|---|---|
| 1 | Factory gate / sign, morning light | Video + photo | Opening shot for reels |
| 2 | Stack of raw wood planks | Video + photo | Touch the grain, slow pan |
| 3 | Marking and measuring the wood | Video close-up | Pencil, ruler, hands only |
| 4 | Cutting on the machine | Video + slow-mo | Sawdust flying; keep safety gear on |
| 5 | Shaping and drilling pieces | Video close-up | Show one piece taking shape |
| 6 | Sanding by hand | Video + slow-mo | Fingers checking the smooth edge: key safety shot |
| 7 | Painting or colouring | Video + photo | Brush strokes, bright colours drying in rows |
| 8 | Drying racks full of pieces | Photo | Overhead or straight-on, very "Instagram" |
| 9 | Assembling the toy | Video | Stacking the finished toy for the first time |
| 10 | Quality check | Video + photo | Edge check, shake test, counting pieces |
| 11 | Team at work (wide) | Video + photo | Ask for consent; faces optional |
| 12 | Before and after | Photo pair | Raw block next to finished toy, same angle |
| 13 | ASMR sounds | Audio + video | Sanding, wooden pieces clicking, stacking |

**Safety on set:** keep guards and gloves on in every shot, no loose clothes near machines, and ask workers before showing their faces.

# Shot list: office and packing

The office shots show the people and care behind every order. Tidy the desks and keep the Wudly logo visible in the background.

| # | Shot | Type | Notes |
|---|---|---|---|
| 1 | Office entrance with Wudly logo | Video + photo | Logo wall or signboard |
| 2 | Toy shelves / sample wall | Photo | Wide and close-ups for future posts |
| 3 | Design desk: sketches, new toy ideas | Video close-up | Paper sketches next to the real toy |
| 4 | Team meeting around a table of toys | Video | Natural chatting, no posing |
| 5 | Testing a new toy (adult hands) | Video | "Before it reaches you, it reaches us" |
| 6 | Packing an order: wrap, box, label | Video + slow-mo | Main shot for the "Packing your order" reel |
| 7 | Handwritten thank-you note going in | Video close-up | Only if Wudly really adds one |
| 8 | Boxes stacked and ready to ship | Photo | Overhead, logo side up |
| 9 | Courier pick-up | Video | Ending shot for the order reel |
| 10 | Team photo | Photo | Everyone holding a favourite toy |

# Shot list: founders

Shoot the couple together first (the strongest story), then each one alone for LinkedIn and individual posts. Natural moments beat posed smiles.

**Together**

| # | Shot | Type | Notes |
|---|---|---|---|
| 1 | Walking into the factory side by side | Video | Opening shot of the founder reel |

| # | Shot | Type | Notes |
|---|---|---|---|
| 2 | Both checking a finished toy, talking | Video | Candid, from a distance |
| 3 | Sitting together with toys on the table | Photo | Main portrait for profile and press |
| 4 | Laughing, one hands the other a toy | Photo | Warm, human moment |
| 5 | Two-person interview, side by side | Video, 2 cameras | See interview questions below |
| 6 | "Who does what?" quick game | Video | Fun reel: point at each other for each question |

**Each founder alone**

| # | Shot | Type | Notes |
|---|---|---|---|
| 7 | Clean portrait at desk or wood wall | Photo | LinkedIn profile and banner |
| 8 | At work in their own area (design, factory, numbers, orders) | Video + photo | Shows each role clearly |
| 9 | Talking to camera, 30 to 60 seconds | Video | One LinkedIn video each |
| 10 | Holding their favourite Wudly toy | Photo | Caption: "My favourite toy and why" |

**Wardrobe tip:** plain colours (cream, white, beige, denim, a touch of red). Avoid big logos and tiny checks, which flicker on camera.

## Reels to film

Ten reels, each 15 to 45 seconds. Film them all on the day; edit and post over 8 weeks.

| # | Reel | Hook (first 2 seconds) | Shots | Audio |
|---|---|---|---|---|
| 1 | From wood to toy | "This was a block of wood this morning." | Factory shots 2 to 9, fast cuts | Trending upbeat track |
| 2 | Meet the founders | "We're a husband and wife who make wooden toys." | Founder shots 1, 3, 5 | Their own voice |

| # | Reel | Hook (first 2 seconds) | Shots | Audio |
|---|---|---|---|---|
| 3 | Who does what? | "Who's the boss at Wudly?" | Founder shot 6 | Fun trending sound |
| 4 | Smooth enough for babies | "Why we sand every edge by hand." | Factory shots 6, 10, slow-mo | Soft music + voiceover |
| 5 | Factory ASMR | No words: just the sound of sanding | Factory shot 13 | Raw sounds only |
| 6 | Packing your order | "Packing an order for a little one in Pune." | Office shots 6 to 9 | Calm trending audio |
| 7 | A day at Wudly | "7 am to 7 pm at a toy factory." | Mix of all, with time stamps | Vlog-style voiceover |
| 8 | Why we started Wudly | "We couldn't find toys we trusted for our own child."* | Interview answer + b-roll | Founder voice |
| 9 | Colour day | "Guess which colour we paint first?" | Factory shots 7 and 8 | Playful music |
| 10 | Before and after | Raw block, snap, finished toy | Factory shot 12 | Transition sound |

*Use the founders' real reason in their own words; the line above is only an example.

## Founder interview questions

Film the couple side by side with two cameras, about 20 minutes. Ask them to answer in full sentences ("We started Wudly because…") so each answer works as a clip. Hindi, Gujarati or English is fine; we add subtitles.

**The story**

1. How did you two meet, and when did the idea of Wudly start?
2. Why wooden toys? What was the moment you decided to start?
3. What was the hardest part of the first year?
4. What does the name "Wudly" mean to you?

**Working together as a couple**

1. Who does what at Wudly?
2. What do you argue about most at work? (keep it light)
3. How do you switch off from work at home?
4. One thing you admire about how your partner works?

**The toys and safety**

1. How do you pick or design a new toy?
2. What checks does a toy go through before it ships?
3. Which Wudly toy are you most proud of, and why?

**For parents and the future**

1. One tip for parents choosing a toy?
2. What do you want Wudly to be in five years?
3. Finish this line: "Every Wudly toy is made..."

**Quick-fire (for a fun reel):** favourite toy as a child, tea or coffee, early bird or night owl, who is more patient?

## Shoot-day schedule

One full day, about 9 hours. Factory in the morning while work is running and the light is good; founders after lunch when they are free; office and packing at the end. If the factory and office are in different places, add 1 hour for travel.

| Time | Where | What | Shots |
|---|---|---|---|
| 8:30 to 9:00 | Factory | Arrive, set up, walk-through with the floor in-charge | — |
| 9:00 to 11:30 | Factory | Process from raw wood to finished toy, plus ASMR sounds | Factory 1 to 13 |
| 11:30 to 12:00 | Factory | Team at work, before-and-after photos | Factory 11, 12 |
| 12:00 to 1:00 | — | Lunch; check footage, re-shoot list | — |
| 1:00 to 2:30 | Office or factory corner | Founders together: walk-in, portraits, interview | Founders 1 to 5 |
| 2:30 to 3:15 | Same | "Who does what?" game, quick-fire questions | Founders 6, reel 3 |
| 3:15 to 4:00 | Office | Each founder alone: portraits and talk to camera | Founders 7 to 10 |
| 4:00 to 5:15 | Office | Design desk, team meeting, testing, packing an order | Office 1 to 9 |

| Time | Where | What | Shots |
|---|---|---|---|
| 5:15 to 5:30 | Office | Team photo | Office 10 |
| 5:30 to 6:00 | — | Backup footage, pack up | — |

## Gear, crew and prep checklist

A small crew of 2 to 3 people is enough: one shooter (video), one for photos and sound, and one person from Wudly to guide the team.

### Gear

- [ ] Camera or phone that shoots 4K, plus a second phone for the 2-camera interview
- [ ] Two lapel mics (one per founder) and a phone voice recorder as backup
- [ ] Tripod and a phone gimbal for walking shots
- [ ] One soft LED light for the interview and portraits
- [ ] Spare batteries, power bank, 2 memory cards, extension board
- [ ] Clean cloth to dust toys before close-ups

### Before the day

- [ ] Confirm the date with the founders and the factory in-charge
- [ ] Pick the "hero toy" to follow through the whole process
- [ ] Ask the factory to schedule cutting, sanding and painting during the morning
- [ ] Clean and tidy the factory floor, office desks and logo wall
- [ ] Share the interview questions with the founders 2 days ahead
- [ ] Get photo and video consent from every team member who appears
- [ ] Prepare a sample order (box, tissue, label) to film packing

### On the day

- [ ] Shoot vertical (9:16) for reels and some horizontal for the website and YouTube
- [ ] Record 10 seconds of quiet room sound in each location
- [ ] Back up footage at lunch and at the end of the day

# Posting plan

The shoot feeds 8 weeks of content: one shoot reel a week on Instagram, one founder post a week on LinkedIn, and daily stories from the photo bank. Regular product posts carry on alongside.

| Week | Instagram reel | Instagram post / carousel | Founder LinkedIn |
|---|---|---|---|
| 1 | Meet the founders (reel 2) | "Meet the people behind Wudly" carousel | Founding story, with the couple portrait |
| 2 | From wood to toy (reel 1) | "How a Wudly toy is made", 6 steps | Why we make toys in India |
| 3 | Smooth enough for babies (reel 4) | Safety checks carousel | What safety means to us as parents |
| 4 | Who does what? (reel 3) | Founders' favourite toys | Running a business as a couple |
| 5 | Packing your order (reel 6) | "Meet the team" carousel | The team behind Wudly |
| 6 | Factory ASMR (reel 5) | Before-and-after photo post | Lessons from our first years |
| 7 | A day at Wudly (reel 7) | Office and design desk carousel | How we design a new toy |
| 8 | Why we started Wudly (reel 8) | Colour day (reel 9) as a post | Five-year vision |

Reel 10 (before and after) is kept as a ready post for a sale or festive week. Every reel ends with the Wudly outro we already made.

**Open questions**

- [ ] Founders' names and titles
- [ ] Shoot date and factory and office addresses
- [ ] Which quality checks are really done (only those go on camera)
- [ ] Is a thank-you note added to orders?

# Wudly Toys: Founders' LinkedIn Content (8 Weeks)

Oct 12, 2026 · @Shreyansh

Eight weeks of ready-to-post LinkedIn content for Wudly's husband-and-wife founders, built from the factory and office shoot. Words in [square brackets] are details only the founders can fill in.

## The plan

The founders post 2 times a week for 8 weeks, using photos and clips from the factory and office shoot. One post a week is the main story (below, ready to post); the second is a short photo post or a reshare from the Wudly company page.

- **Who posts:** both founders from their own profiles. Each main post is written for one of them; the other comments and reshares within an hour.
- **When:** Tuesday and Thursday, 8:30 to 10:00 am.
- **Format:** 1 photo or a short video from the shoot, text of 150 to 250 words, 3 to 5 hashtags, link in the first comment (not in the post).

| Week | Main post | Posted by | Visual from the shoot |
|---|---|---|---|
| 1 | Why we started Wudly | Both (joint post) | Couple portrait with toys |
| 2 | From a block of wood to a toy, made in India | Husband | Factory process photos (carousel) |
| 3 | What safety means to us as parents | Wife | Sanding and quality-check close-ups |
| 4 | Building a business with your life partner | Both | "Who does what?" clip |
| 5 | The team behind every order | Husband | Team photo |
| 6 | 5 lessons from building Wudly | Wife | Founder at work |
| 7 | How we design a new toy | Wife or Husband | Design desk, sketch next to toy |
| 8 | Where Wudly is going next | Both | Walking into the factory |

# Weeks 1 and 2

**Week 1: Why we started Wudly** (joint post, couple portrait)

> Two parents. One question. *"Why is it so hard to find toys we trust?"*
>
> When our [son/daughter] was [age], we spent weeks looking for toys that were simple, safe and made to last. Most were plastic, loud and broke in a month.
>
> So in [year], we started making our own. That became Wudly.
>
> Today Wudly makes wooden, Montessori-inspired toys in [city], India. Every piece is cut, sanded and checked by a team we know by name.
>
> We run Wudly together as husband and wife. Some days that's the best part. Some days it's the hardest. Over the next few weeks we'll share the real story: the factory, the team, the mistakes and what we've learnt.
>
> If you're a parent, a maker, or someone building a brand in India, we'd love to have you along.
>
> #WudlyToys #FounderStory #MadeInIndia #WoodenToys #Parenting

**Week 2: From a block of wood to a toy** (husband, factory carousel)

> This was a block of wood at 9 am. By evening, it was a toy a child will play with for years.
>
> Here's what happens in between at our factory in [city]:
>
> 1. We pick and mark the wood.
> 2. We cut and shape every piece.
> 3. We sand each edge by hand until it's smooth for little hands.
> 4. We paint and let it dry.
> 5. We check every piece before it's packed.
>
> It would be faster to skip a step. We don't, because our own child plays with these toys too.
>
> Making in India isn't only about cost. It means we can walk onto the floor, see every step and fix things the same day.
>
> Swipe through the photos to see the process.
>
> #MadeInIndia #Manufacturing #WoodenToys #D2CBrand #WudlyToys

# Weeks 3 and 4

**Week 3: What safety means to us as parents** (wife, sanding close-up)

> Before any toy leaves our factory, someone runs their fingers along every edge.
>
> It sounds small. For us, it's the whole point.
>
> As a mother, I know a toy goes in the mouth, gets thrown, gets slept with. So at Wudly we ask one question about every product: *Would I give this to my own child?*
>
> That's why we [sand every edge by hand / use child-safe paints / check each piece before packing]*.
>
> Parents shouldn't need to read a chemistry label to feel safe. That trust is something we earn one toy at a time.
>
> To other founders making products for children: what's one check you never skip?
>
> #ChildSafety #Parenting #WoodenToys #WomenInBusiness #WudlyToys

*Keep only the checks Wudly really does.

**Week 4: Building a business with your life partner** (both, "who does what?" clip)

> "Isn't it hard working with your husband / wife?"
>
> We hear this every week. Honest answer: yes, and it's also why Wudly works.
>
> What helps us:
>
> - **Clear roles.** [Husband] runs [factory and production]. [Wife] leads [design, brand and customers].
> - **One rule at home:** no work talk at dinner. (We break it about twice a week.)
> - **We disagree in the office, not in front of the team.**
> - **We celebrate small wins together,** like the first order from a new city.
>
> Building something with the person you share your life with is not for everyone. For us, it's turned into the best partnership we know.
>
> Couples who work together: what's your one rule?
>
> #CoFounders #Entrepreneurship #StartupIndia #FamilyBusiness #WudlyToys

# Weeks 5 and 6

**Week 5: The team behind every order** (husband, team photo)

> People see our toys. They rarely see the people who make them.
>
> Meet the Wudly team: [number] people across our factory and office in [city]. Carpenters, painters, packers, designers and the person who answers every customer message.
>
> [Name] has been with us since [year] and can tell a badly sanded edge just by touch. [Name] packs most of our orders and adds [the thank-you note / the final check]*.
>
> A small brand runs on a small team that cares a lot. Every 5-star review we get is really theirs.
>
> Thank you, team. This one's for you.
>
> #TeamWork #SmallBusiness #MadeInIndia #Gratitude #WudlyToys

*Use real names only with each person's permission.

**Week 6: 5 lessons from building Wudly** (wife, founder at work)

> [Number] years of building a wooden toy brand. Five things we wish we'd known on day one:
>
> 1. **Parents buy trust before they buy toys.** Show how it's made.
> 2. **Slow is fine.** Our best-selling toy took [time] to get right.
> 3. **Say no to most ideas.** A short range done well beats a big catalogue.
> 4. **Listen to the reviews you don't like.** They improved our [product].
> 5. **Your partner is your co-founder, not your backup.** Split the work, share the wins.
>
> Which one would you add?
>
> #StartupLessons #Entrepreneurship #D2CIndia #FounderJourney #WudlyToys

## Weeks 7 and 8

**Week 7: How we design a new toy** (design desk, sketch next to the toy)

> Every Wudly toy starts as a sketch on paper and a question: *What will a child learn by playing with this?*
>
> Our process:
>
> 1. **Start with a skill:** colours, counting, balance, fine motor.
> 2. **Sketch it simple.** If it needs batteries to be fun, it's not for us.
> 3. **Make a rough sample** and give it to real kids (ours included).
> 4. **Watch, don't ask.** Children show you what works in 2 minutes.
> 5. **Fix, sand, test again** before it goes into production.
>
> Our [toy name] went through [number] samples before it felt right.
>
> Parents: what kind of toy do you wish existed?
>
> #ProductDesign #Montessori #EarlyLearning #WoodenToys #WudlyToys

**Week 8: Where Wudly is going next** (both, walking into the factory)

> When we started Wudly, the goal was simple: toys we'd trust for our own child.
>
> Today, we [ship across India / have X families playing with Wudly / work with schools]*. Next, we want to:
>
> - [Grow the range for ages 5 to 10]
> - [Bring Wudly to more schools and play centres]
> - [Take Indian-made wooden toys to more homes]
>
> And we want to keep doing it the same way: made carefully, in India, by a team we know.
>
> Thank you to every parent, retailer and friend who has supported us. This is just the start.
>
> #Vision #MadeInIndia #StartupIndia #WoodenToys #WudlyToys

*Use only real numbers and real plans.

## Company page posts

The Wudly company page posts once a week (Fridays), and the founders reshare with one line of their own.

| Week | Company page post | Visual |
|---|---|---|
| 1 | "Meet our founders": short intro of the couple | Couple portrait |
| 2 | "How a Wudly toy is made" in 6 steps | Factory carousel (6 photos) |
| 3 | Factory ASMR: 15-second sanding clip | Reel from the shoot |
| 4 | Behind the scenes at the Wudly office | Office photos |
| 5 | "Meet the team" | Team photo |
| 6 | Packing your order, start to finish | Packing reel |
| 7 | Why wooden toys? (reuse the carousel we made) | Why Wooden carousel |
| 8 | Thank you: a look back at 8 weeks | Best photos collage |

**For B2B reach:** add one line in weeks 2, 5 and 8 inviting schools, preschools and retailers to get in touch ("For bulk and school orders, message us").

## Tips and details to fill in

### Posting tips

- The first 2 lines decide if people click "see more": keep the hook short and personal.
- Use a real photo from the shoot, never a product-only image, on founder posts.
- Reply to every comment in the first 2 hours; LinkedIn shows active posts to more people.
- Put the website link in the first comment, not in the post.
- Update both profiles before week 1: new portrait, banner with the Wudly logo, headline such as "Co-founder, Wudly Toys | Wooden toys made in India".

**Hashtag bank (pick 3 to 5):** #WudlyToys #WoodenToys #MadeInIndia #StartupIndia #D2CIndia #FounderStory #CoFounders #Parenting #Montessori #EarlyLearning #SmallBusiness #WomenInBusiness

### Details only the founders can give

- [ ] Both founders' names and titles
- [ ] Year Wudly started, factory city, team size
- [ ] Their child's age when they started, if they're happy to share it
- [ ] Which safety and quality checks are really done
- [ ] One real mistake or lesson for week 6
- [ ] Real numbers and plans for week 8 (orders, cities, schools)
